

1. The survey

The census survey was conducted internally in early September 2023, with a deadline for responses of 1st October. The survey was carried out on owned properties only, as per the TSM requirements the surveys for managed properties was carried out by the owning organisation. We conducted separate surveys for rented and shared ownership tenure.

We used a blended survey approach:

- Stage One – digital (email with links) and postal if no email address held. Promoted to completed by all staff and automated welcome message.
- Stage Two – booster email with link
- Stage Three – targeted under representation, i.e., shared owners by telephone

The response rates were as follows: -

Rented: - 180 surveys were sent and 42 responded = 23.33% (27.87% in 2022)

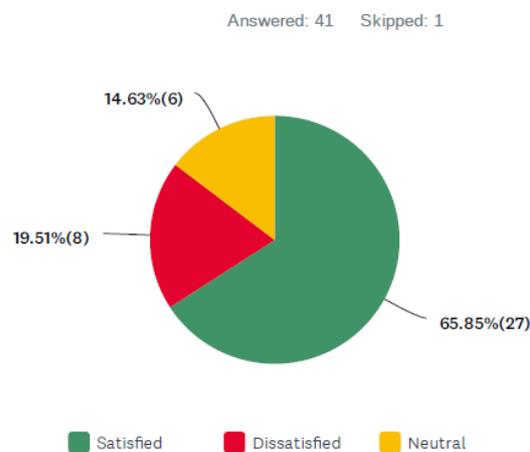

- Rent: 36 (85.7%) surveys were completed via email and 6 (14.3%) surveys were completed via a postal return.

Shared Ownership: - 39 surveys were sent and 8 responded = 20.51% (5% in 2022)

- Shared owners: 8 (100%) surveys were completed via email

** the calculation for this metric requires the results expressed per 1,000 homes. The result is that the formula scales up the actual number of complaints to reach a pro-rata amount set at 1,000 stock. Smaller associations will be familiar with the way low volumes can significantly skew results on certain metrics. This is such a metric and should be viewed with its limitations in mind.

(COMPLAINTS - 12 Stage 1; 1 Stage 2 - 188 properties)

(ASB - 19 cases; 1 hate crime case - 188 properties)

ASB Shared ownership - 1 case from 41 properties)
